

Osiguranje rubova zone opasnosti od pada na gradilištima

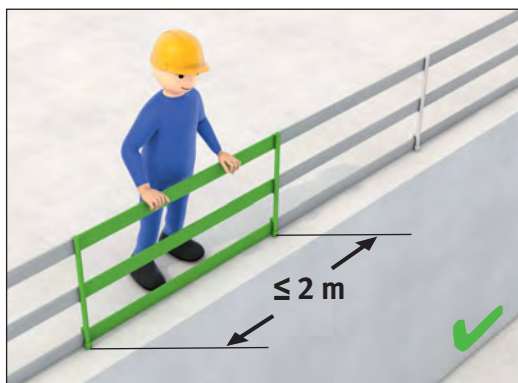

B 100-1

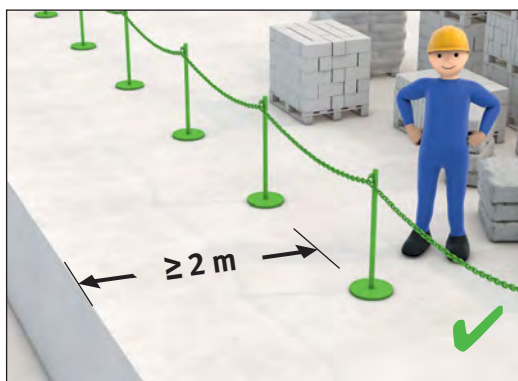

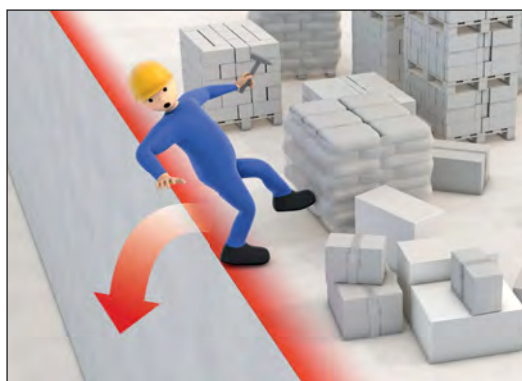

Osigurajte rub zone opasnosti od pada

Ispravno postavite bočnu zaštitu

Bočnu zaštitu postavite stabilno

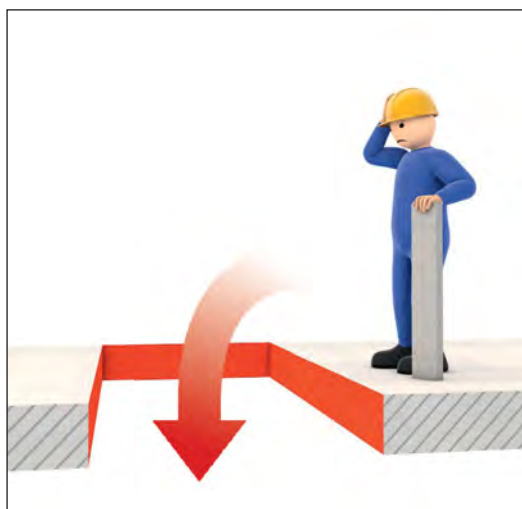

Zatvorite rub zone opasnosti od pada na određenoj udaljenosti

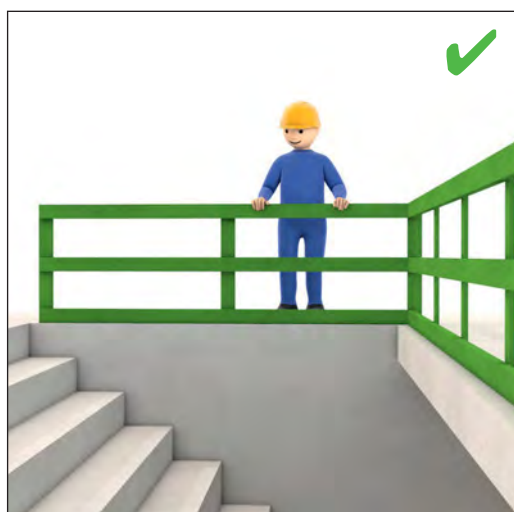

Osiguranje otvora u podu

Zatvorite uzroke
spoticanja

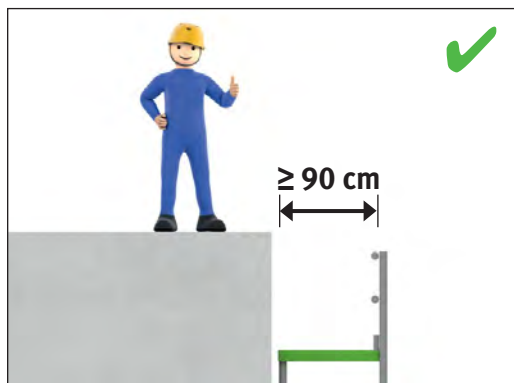

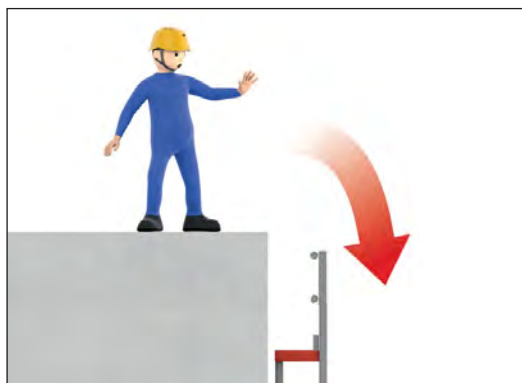

Prekrijte otvore

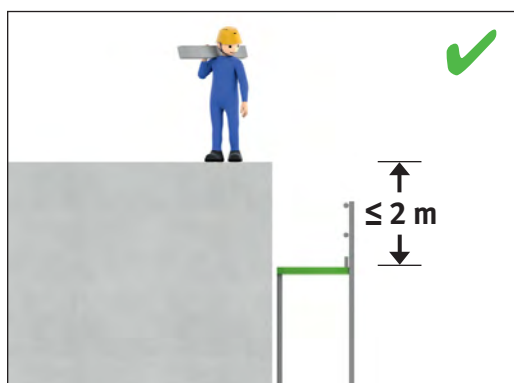

Postavite bočnu
zaštitu na
velikim
otvorima

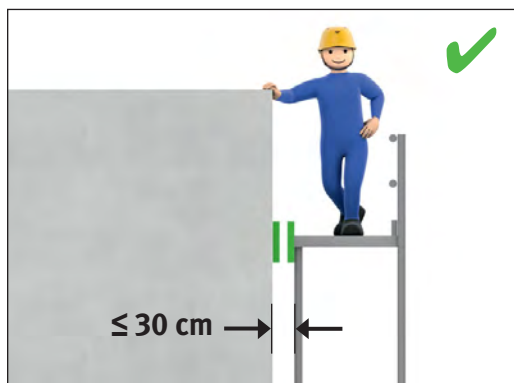

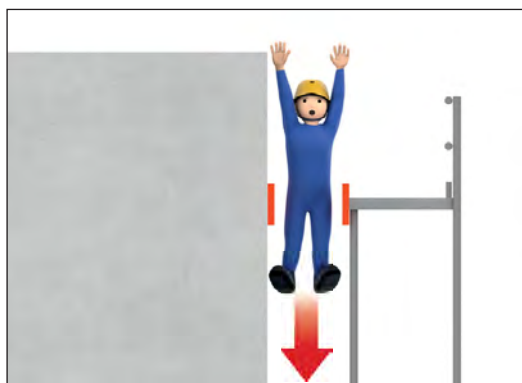

Propisno korištenje zaštitnih skela

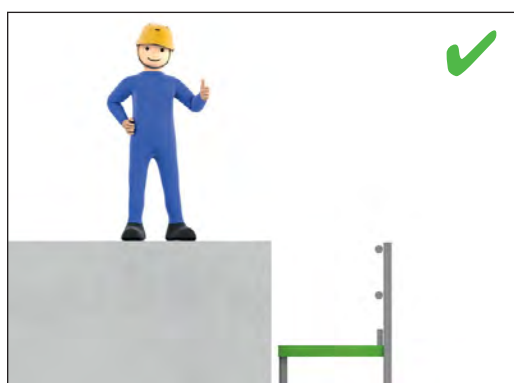

Dovoljno široka površina za zaustavljanje pada

Površina za zaustavljanje pada ne smije biti preduboko

Mali razmak

Slobodna površina za zaustavljanje pada

Propisno sastavljanje mobilne radne platforme

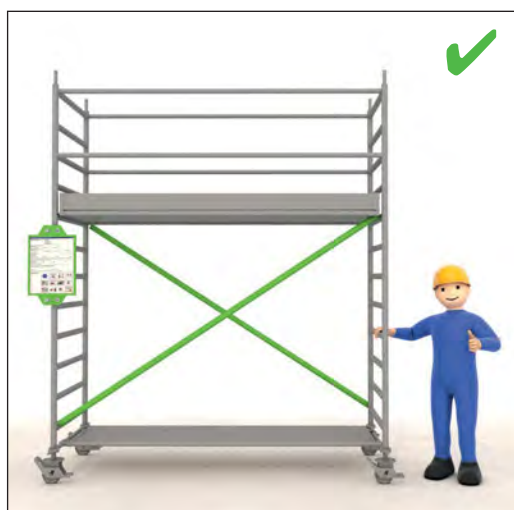

B 112-1

Pridržavajte
se uputa za
montažu

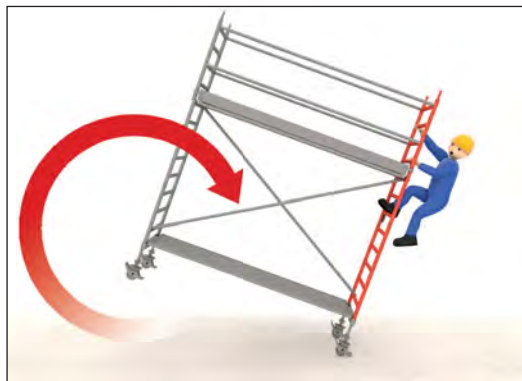

Provjerite
potpunost:
Postoje li svi
dijelovi?

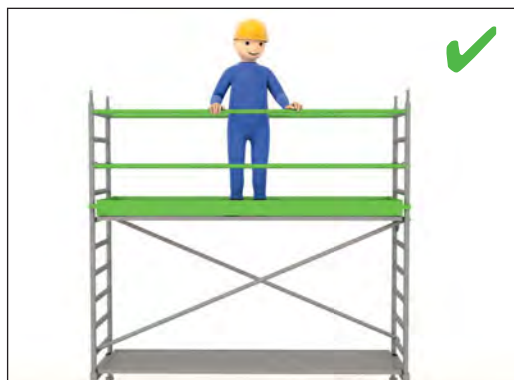

Stabilno
montirajte skelu

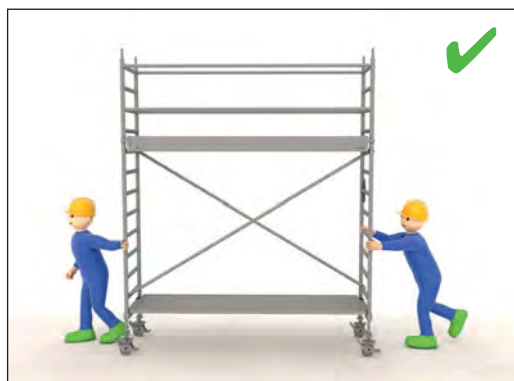

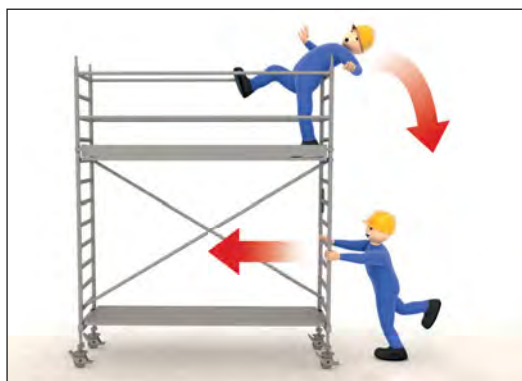

Sigurna uporaba mobilne radne platforme

Ne penjite se po
vanjskoj strani

Ispravna bočna
zaštita

Pomičite je bez
osoba na njoj

Blokirajte
kočnice

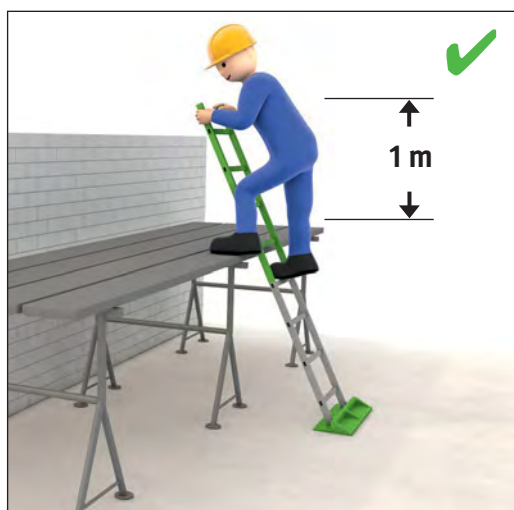

Siguran rad na skeli na nogarima

Radni pod mora
biti potpun

Ne
preopterećujte
skelu

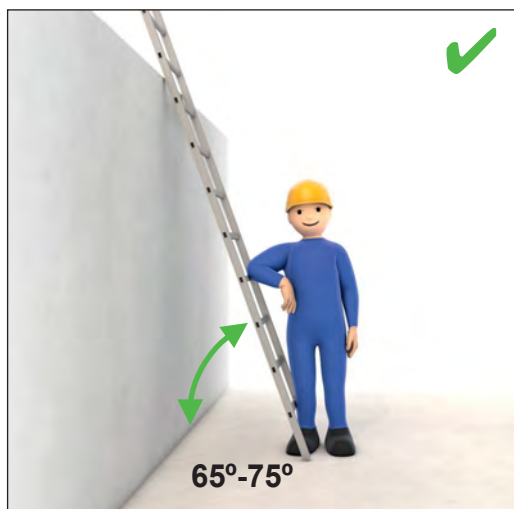

Sigurno se
penjite na skelu

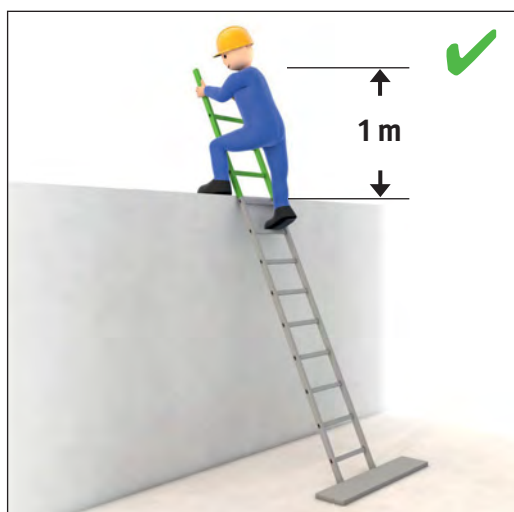

Ispravno postavljanje jednokrakih ljestvi

Osigurajte ih od
klizanja

Postavite ih pod
pravim kutom

Ljestve moraju
biti dovoljno
dugačke

Ispravna uporaba ljestvi za čišćenje zgrada

Postavite ih
stabilno

Zadržite siguran
oslonac

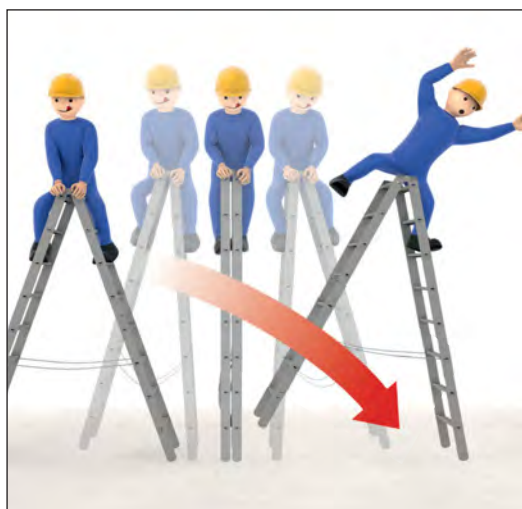

Primijenite
odgovarajuće
radno sredstvo

Sigurna uporaba dvokrakih lestvi

Radite na
sigurnom
osloncu

Nemojte
premještati
lestve

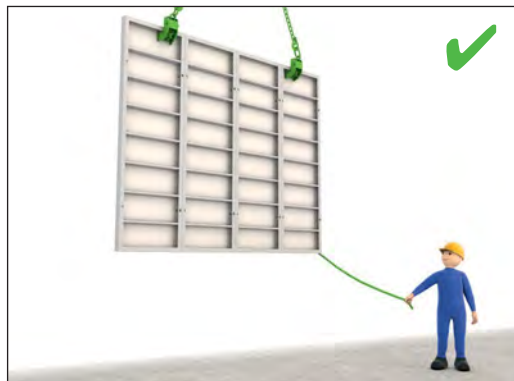

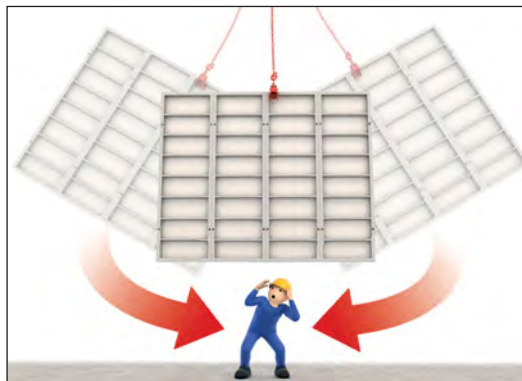

Nemojte
prekoračivati
lestve

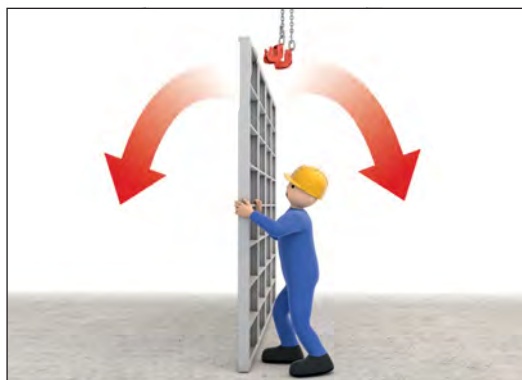

Transport i čuvanje elementa oplata

B 134-1

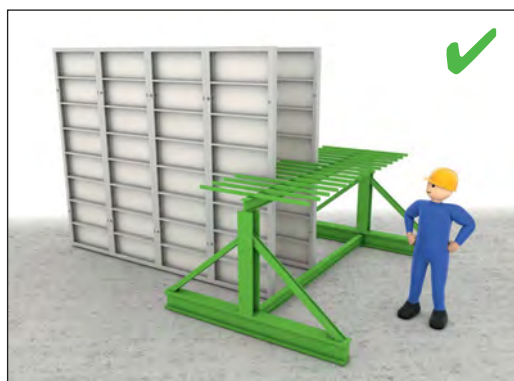

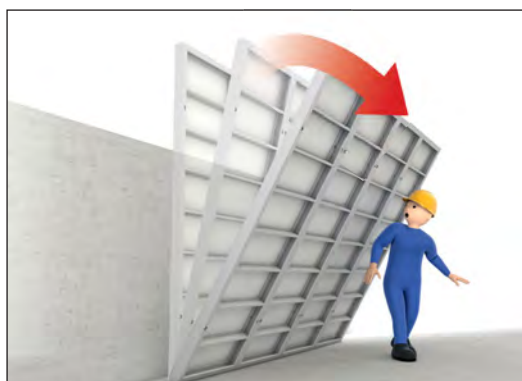

Pričvršćivanje
prema uputama
proizvođača

Stabilizirajte
elemente prije
odvajanja

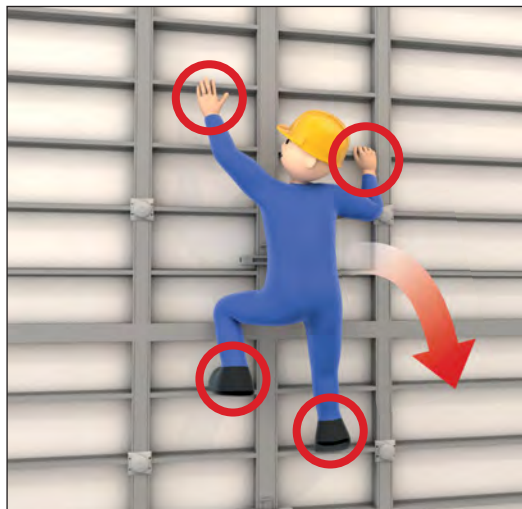

Ne penjite se na
oplatu

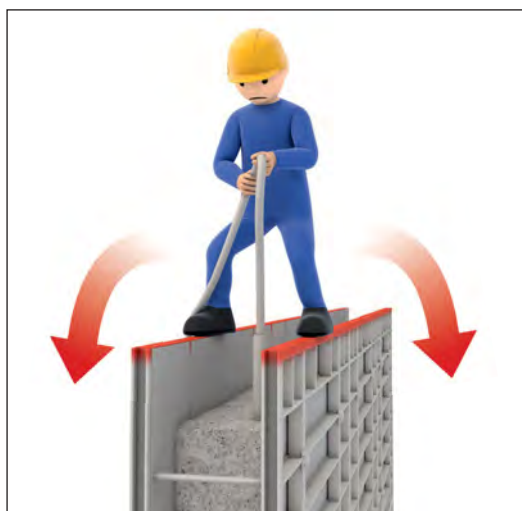

Stabilno ih
čuvajte

Siguran pristup i siguran rad na oplati

Ne penjite se po
oplati

Osigurajte
radno mjesto sa
zaštitom od
pada

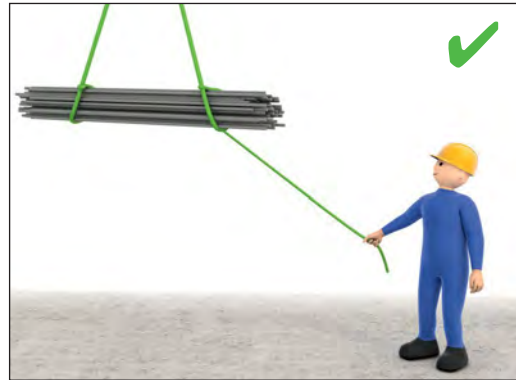

Osigurajte sve
strane

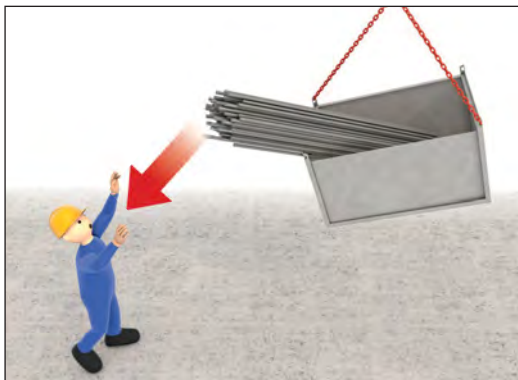

Ispravno pričvršćivanje tereta

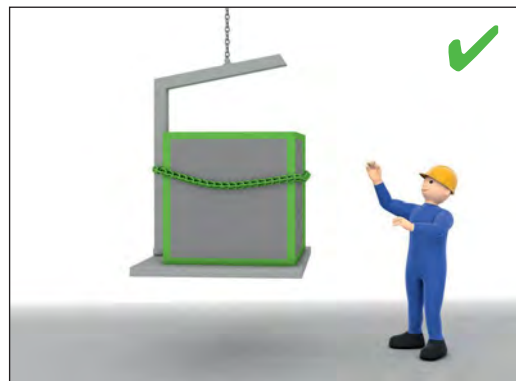

B 161-1

Terete transportirajte privezane u čvor

Upotrebljavajte 4-krake pričvrsnice

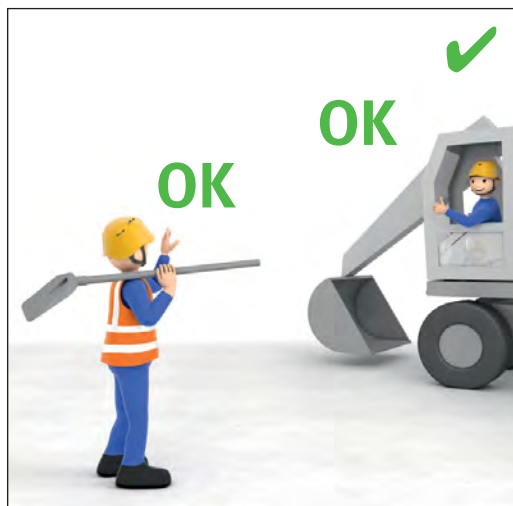

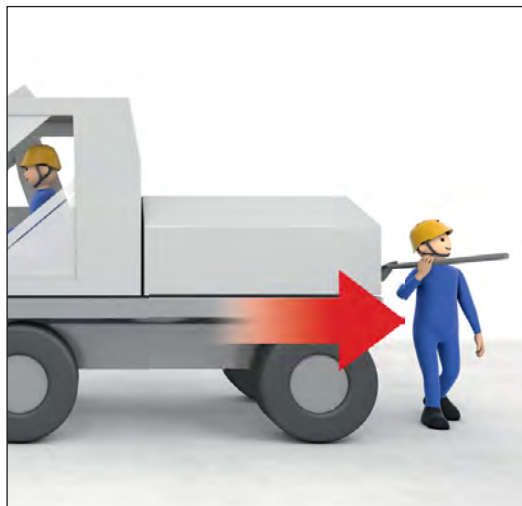

Osigurajte teret od pada

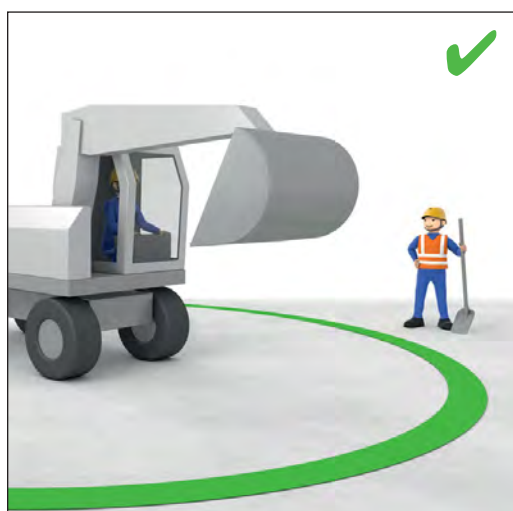

Teret nemojte pričvršćivati za čeličnu užad

Radovi u blizini bagera

Osigurajte komunikaciju

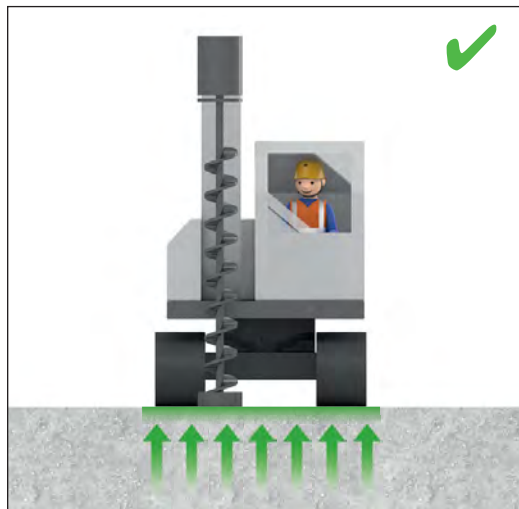

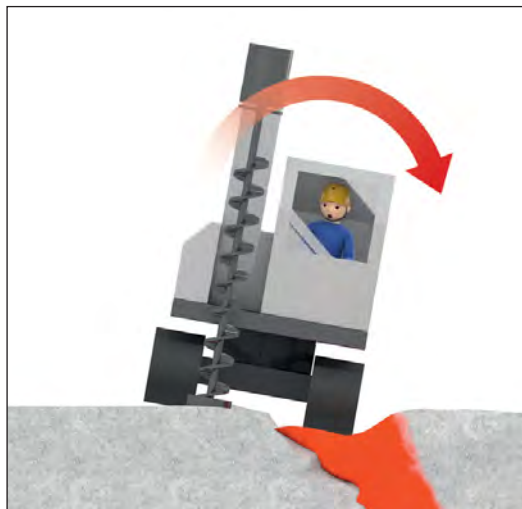

Držite se na udaljenosti

Radovi sa strojevima za bušenje u posebnoj niskogradnji

B 184-1

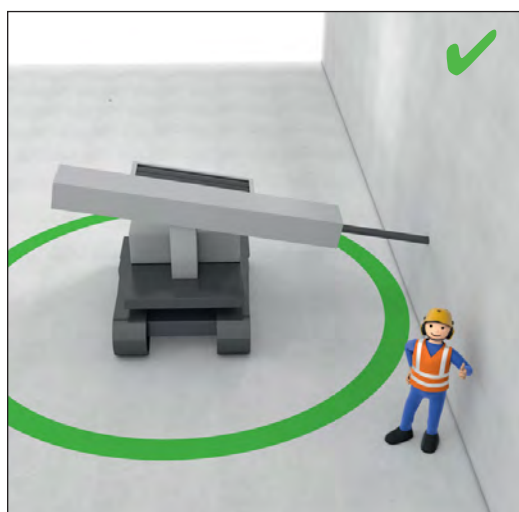

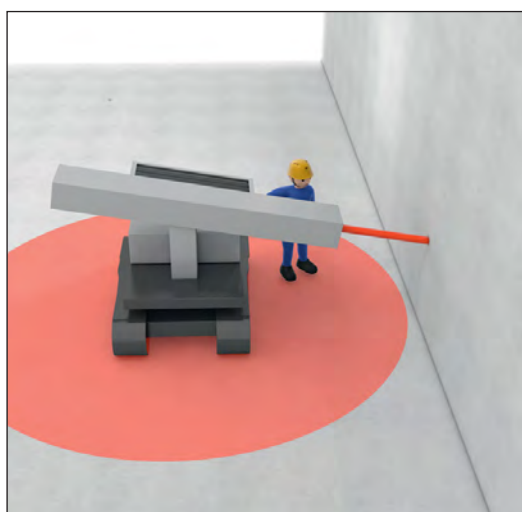

Upotrebljavajte stabilno postavljene strojeve

U slučaju opasnosti, prekinite s radovima

Napustite područje opasnosti

Prijavite opasnost

U slučaju opasnosti, zaustavite stroj

Koristite automatsko navođenje kraka

Održavajte razmak

Radovi sa strojevima za bušenje u posebnoj niskogradnji

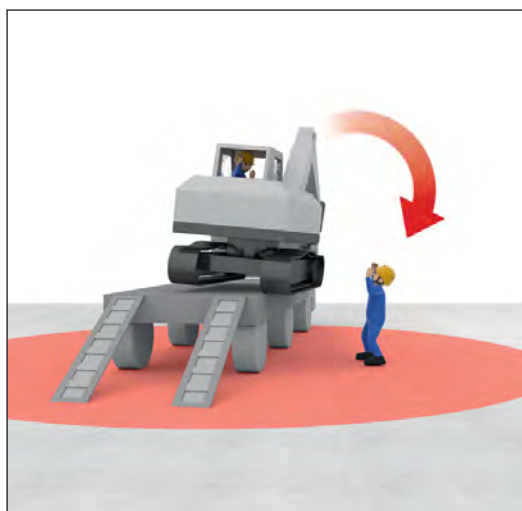

B 184-2

Održavajte
razmak

Pobrinite se za
uzajamno spora-
zumijevanje

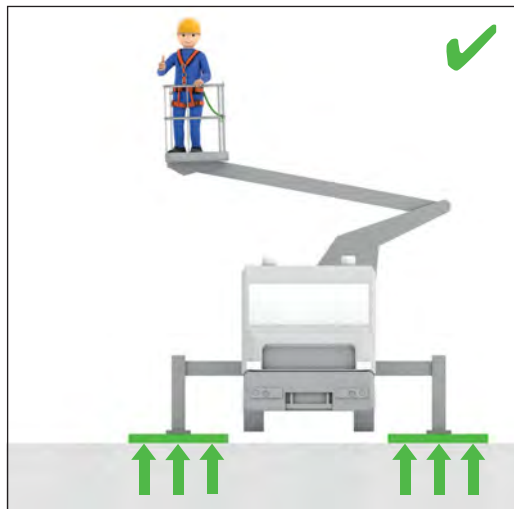

Održavajte
razmak

Koristite
daljinski
upravljač

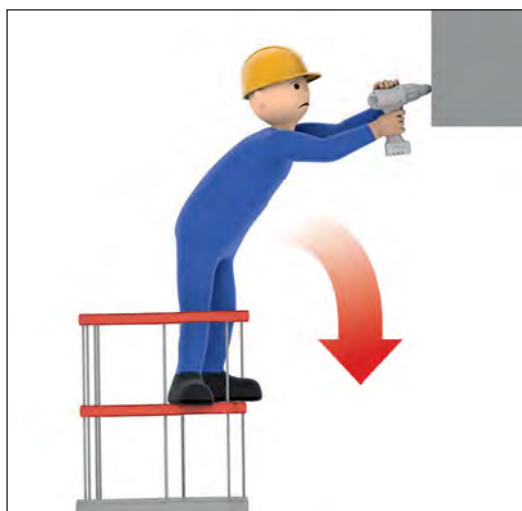

Uporaba podiznih radnih platformi

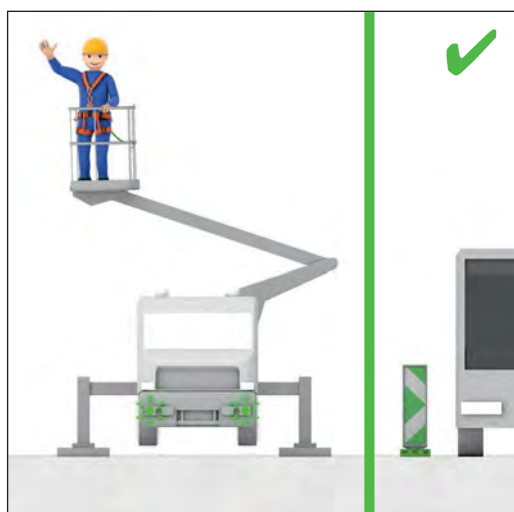

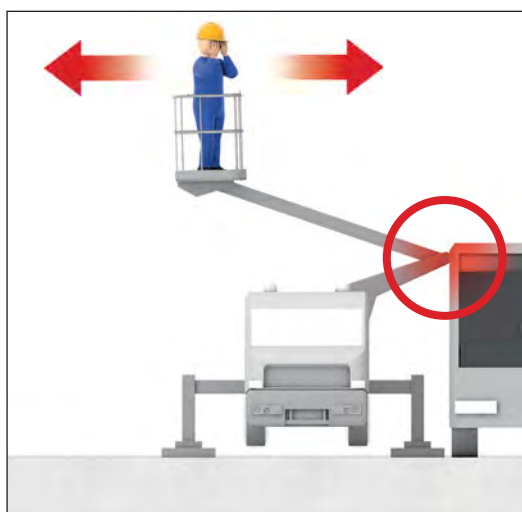

B 212-1

Stabilno je
poduprite

Ne izlazite iz
radne košare

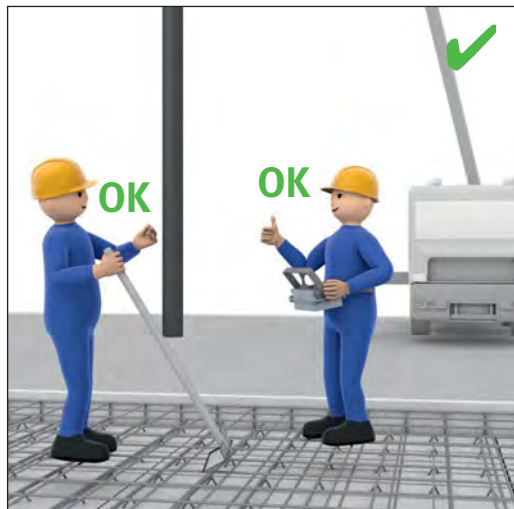

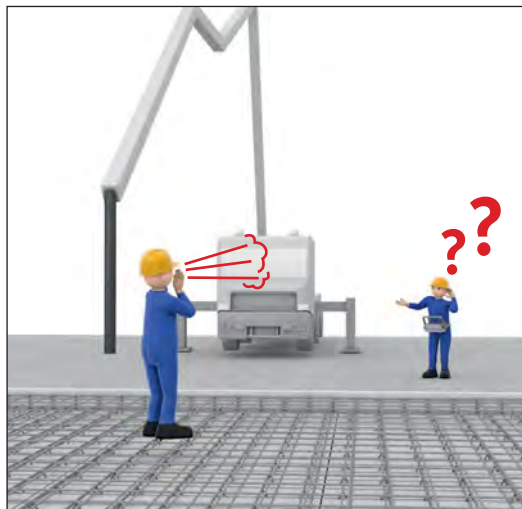

Osigurajte je
od prometnih
opasnosti

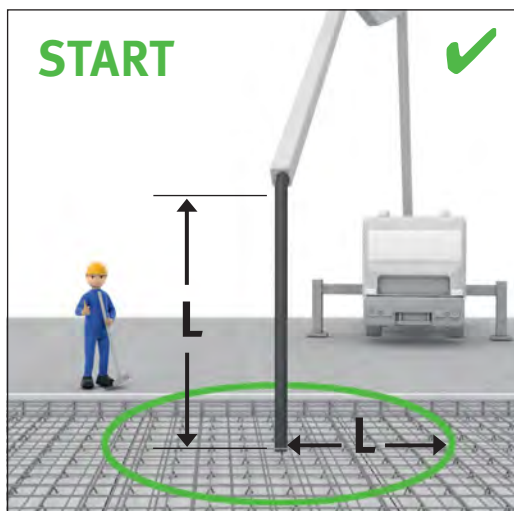

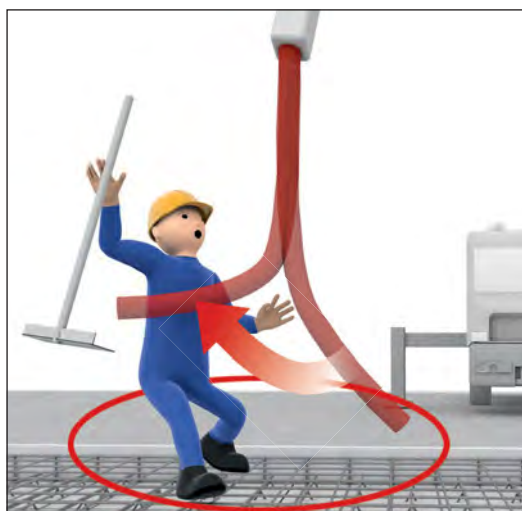

Betoniranje pumpom za beton

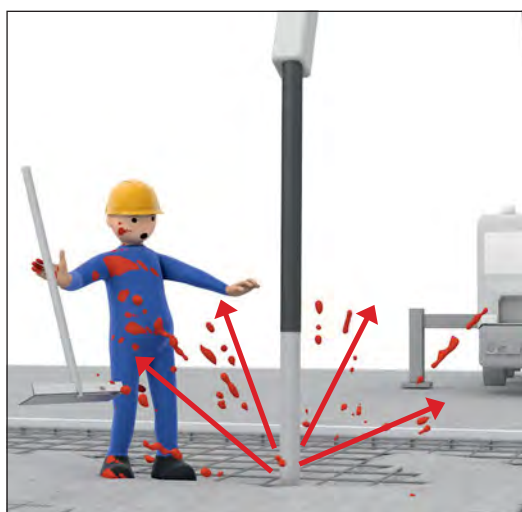

B 216-1

Osigurajte
komunikaciju

Pazite na
sigurnosno
područje pri
betoniranju
pumpom.

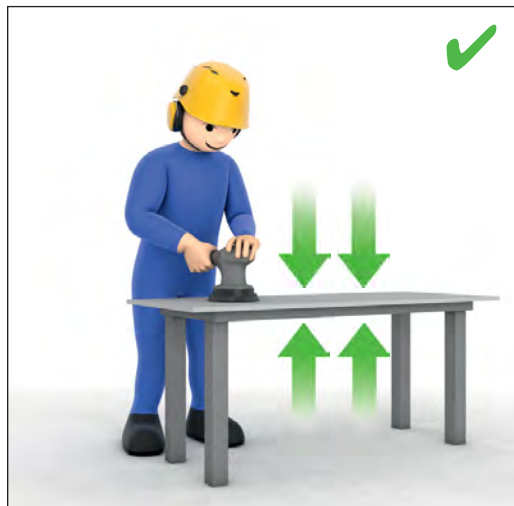

Zaštitite se
od prskanja
betona

Radovi s ručnim brusilicama

B 251-1

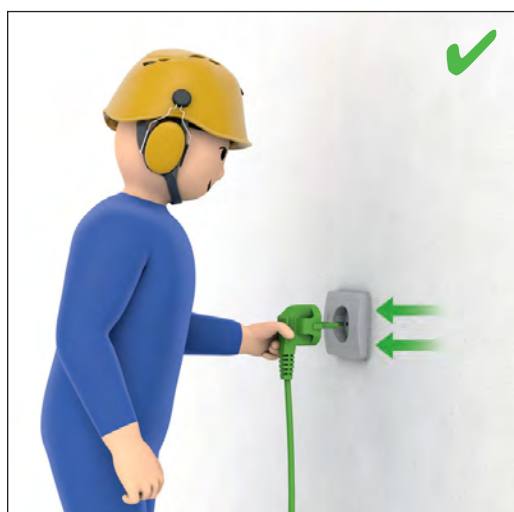

Osigurajte
izradak

Obuhvatite
stroj rukama

Koristite
usisavač

Ne raznosite
prašinu

Prije radova
na stroju,
izvucite utikač
iz utičnice

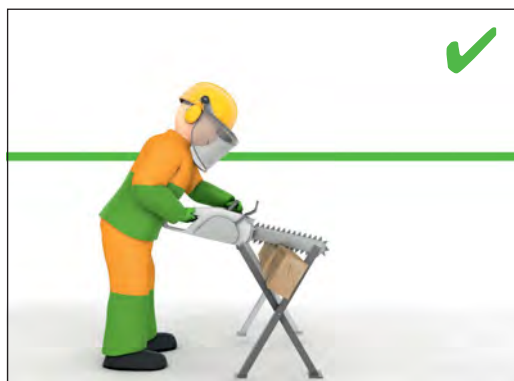

Radovi lančanom pilom

Obratite
pozornost na
upute za
uporabu

Upotrebljavajte
osobnu zaštitnu
opremu

Ne režite
iznad visine
ramena

Osigurajte
siguran oslonac

Uporaba građevinske kružne pile

Ne manipulirajte
zaštitnom
opremom

Upotrebljavajte
graničnike
za rezanje

Radno mjesto
održavajte
čistim

Ne režite u
rukavicama

Radovi s odreznom brusilicom

B 274-1

Montirajte
zaštitne naprave

Odaberite
sigurno mjesto
za stajanje

Osigurajte
obradak – ruke
na stroju

Uporaba strojeva za čiščenje

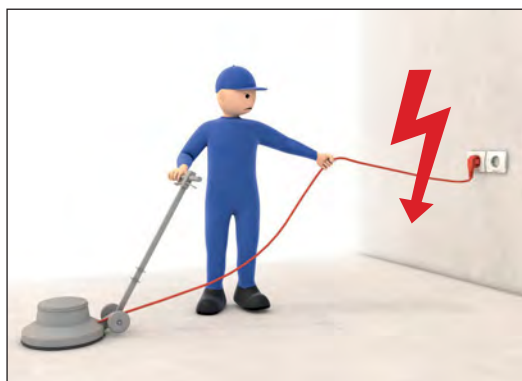

B 291-1

Kotrljajte ih do
mesta uporabe

Zadržite
kontrolu

Povlačite samo
za utikač

Nemojte
upotrebljavati
oštećene
vodove.
Izbjegavajte
štete.

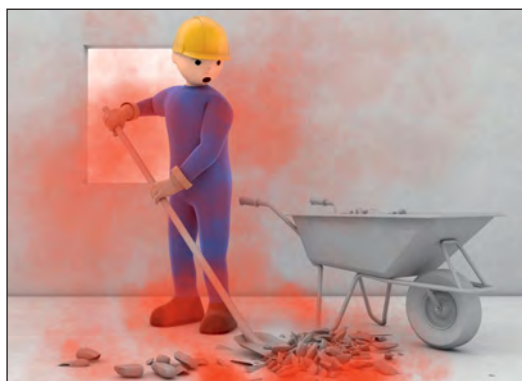

Opasnost od prašine u visokogradnji

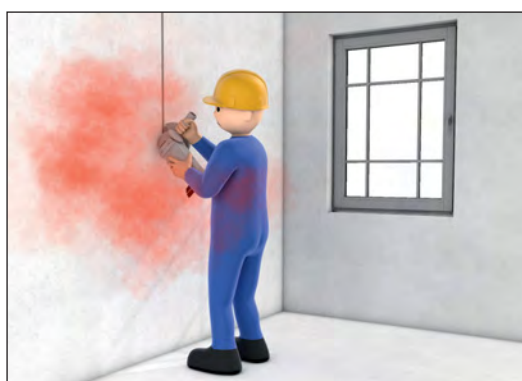

Ne metite na
suho

Ne proizvodite
prašinu

Skupite grubi
materijal

Ne širite
prašinu

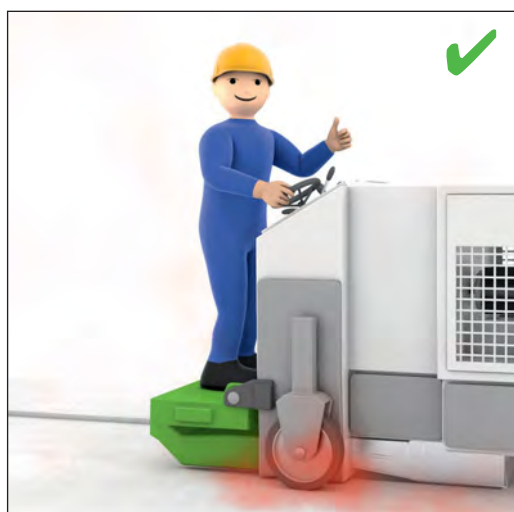

Opasnost od prašine u niskogradnji

Prašinu vežite
vodom

Ne širite
prašinu

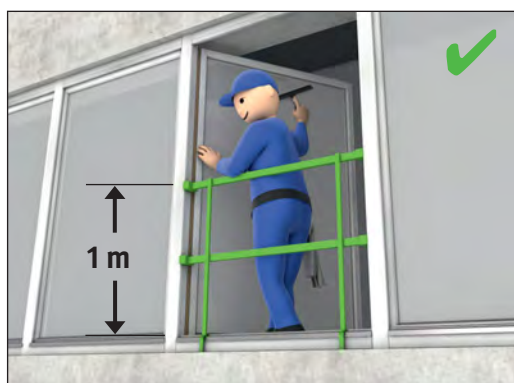

Upotrebljavajte
strojeve s
usisavanjem

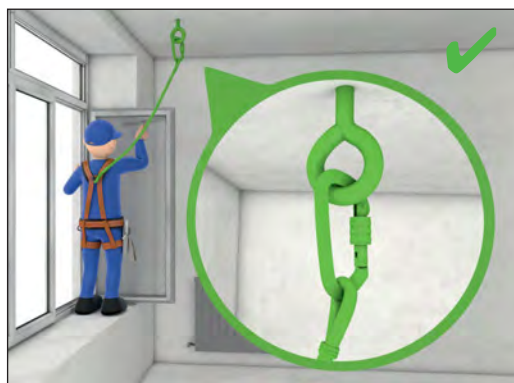

Radovi čišćenja na prozorima i fasadama

Osigurajte siguran oslonac

Upotrebljavajte zaštitu od pada

Osiguranje samo na provjerenim točkama pričvršćenja

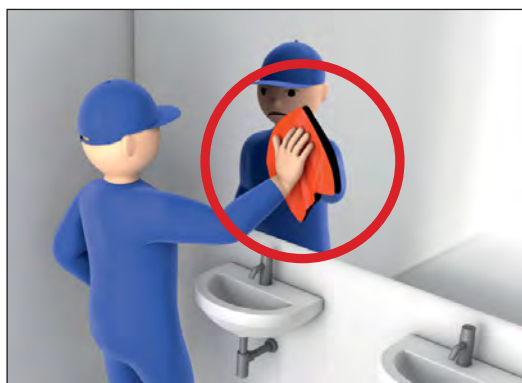

Dodatne mjere iznad osiguranog područja

Spriječite
opasnost od
klizanja

Ne gurajte
ruke u otpad

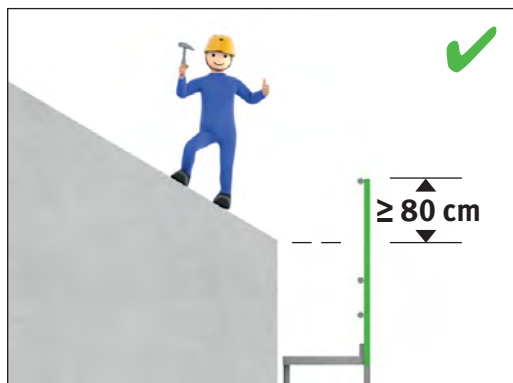

Nosite zaštitu
rukavice

Njegujte kožu
i ruke

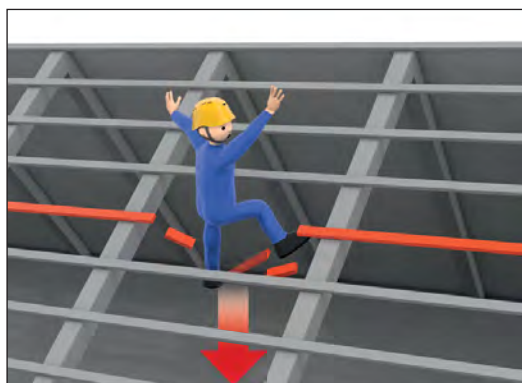

Radna mjesta na krovovima

Radite samo
s napravom
za prihvrat pri
padu

Osigurajte
stranu zabata

Ugradite nosive
krovne letve

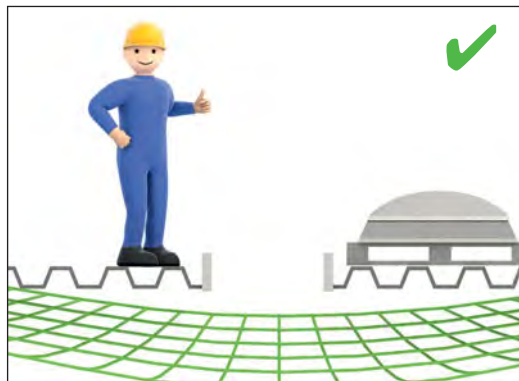

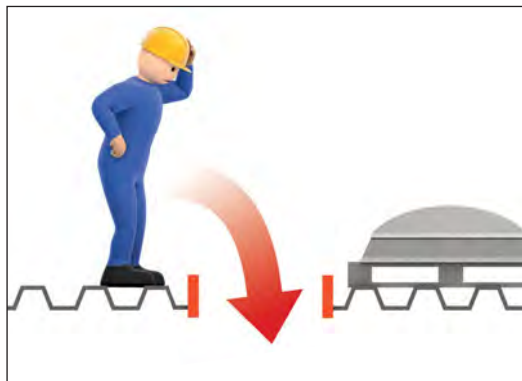

Upotrebjavajte
sigurne
stepenice

Radovi u području otvora i svjetlosnih kupola

C346-1

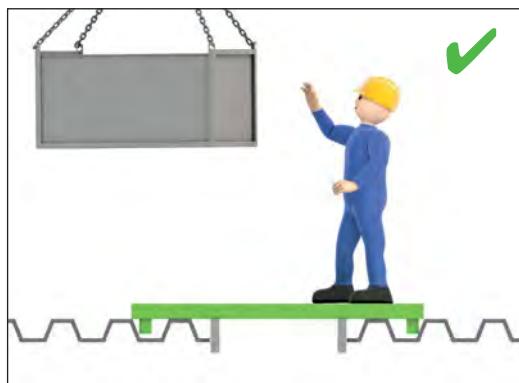

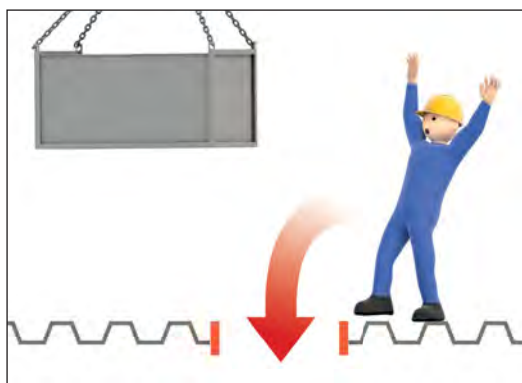

Osigurajte
montažni otvor

Propadanje –
upotrijebite
sigurnosne
rešetke

Osigurajte
svjetlosne
kupole kod
kojih postoji
opasnost od
propadanja

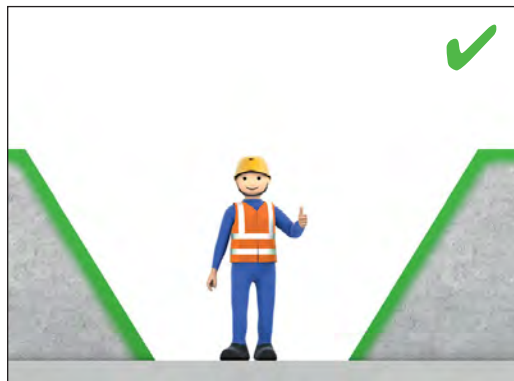

Prekrijte otvore

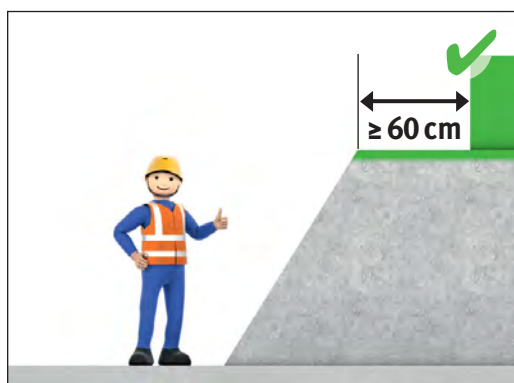

Radovi u građevnim jamama i rovovima pod nagibom

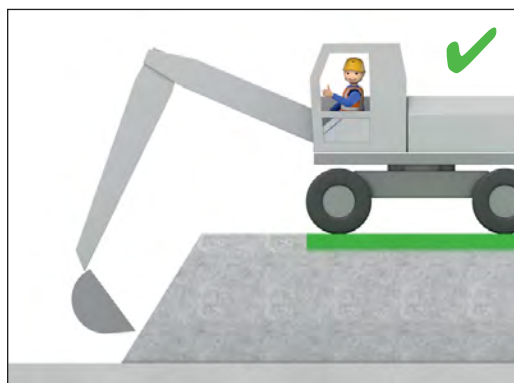

C 469-1

Uzmite u obzir
kut nagiba

Održavajte
zaštitne
površine
slobodnima

Pridržavajte
se sigurnosnih
razmaka

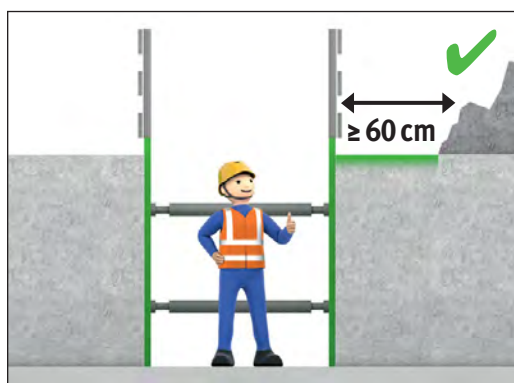

Koristite sigurne
pristupne
naprave

Radovi u obloženim rovovima

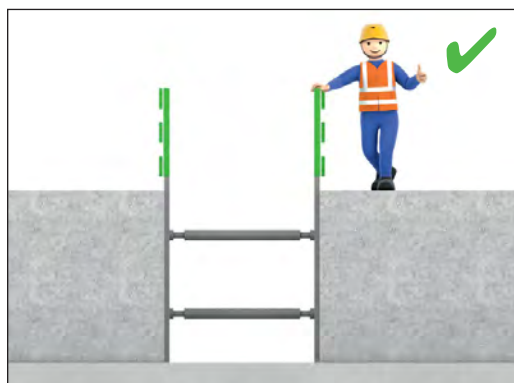

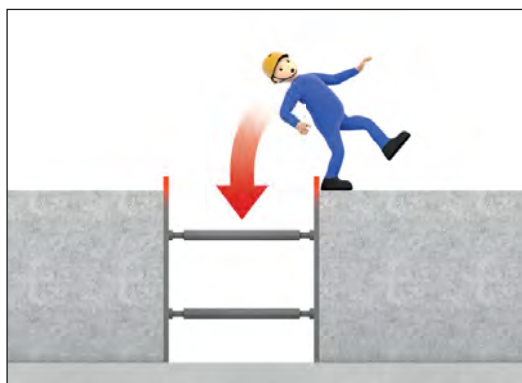

Upotrebljavajte konstrukciju za oblaganje

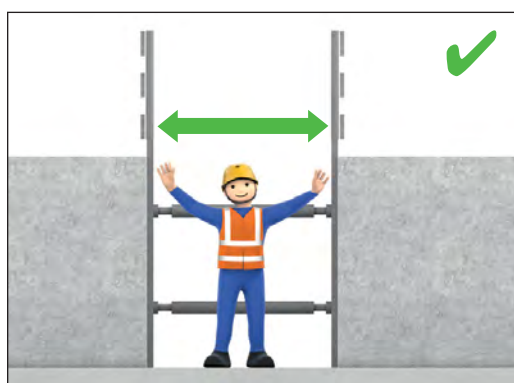

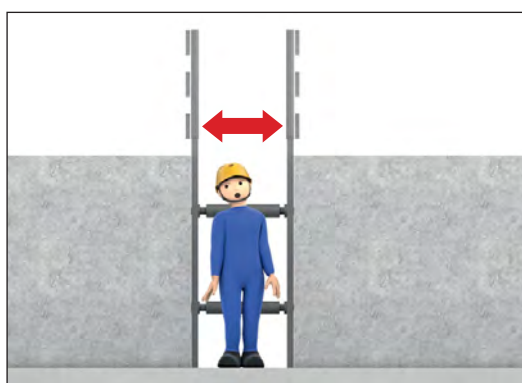

Održavajte zaštitne površine slobodnima

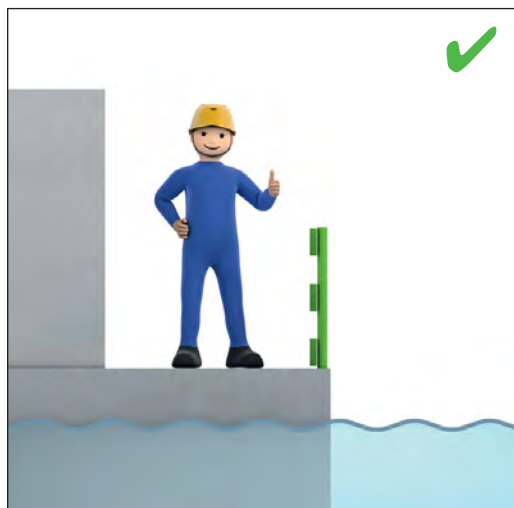

Pustite da konstrukcija za oblaganje strši van

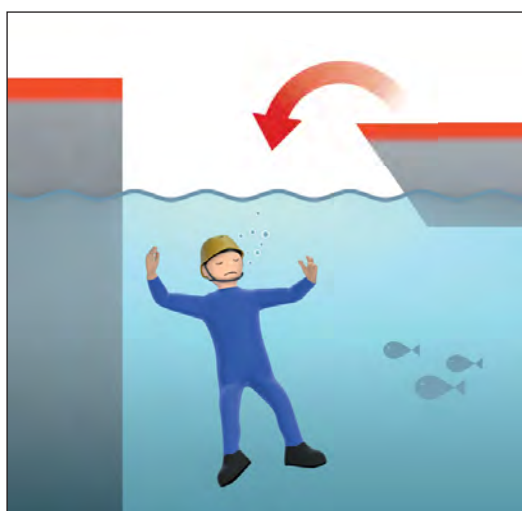

Osigurajte rubove protiv padova

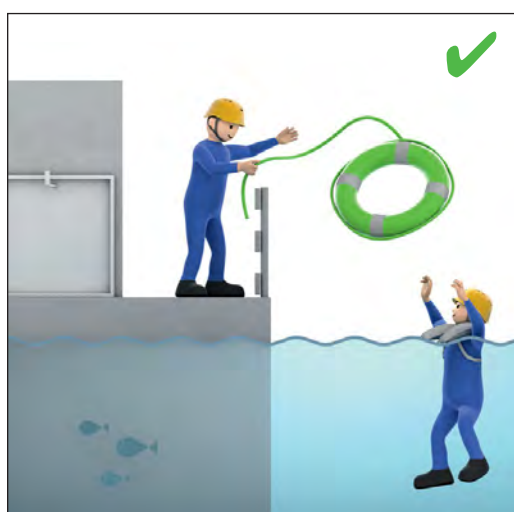

Uzmite u obzir širinu radnog prostora

**Spriječite
padove u vodu**

**Koristite prsluk
za spašavanje**

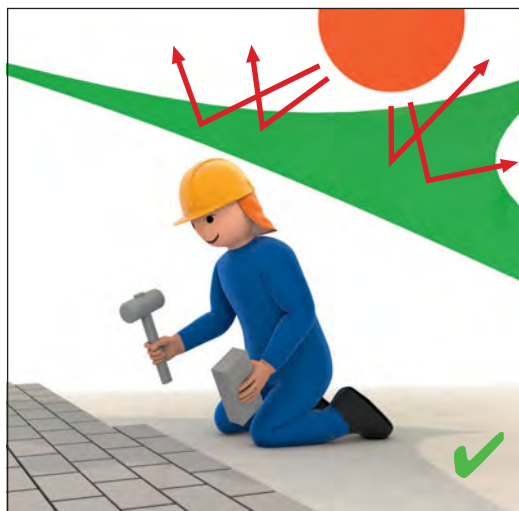

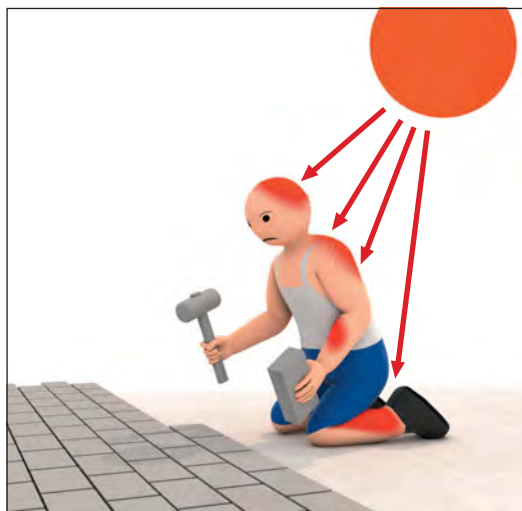

**Pripremite
pojas za
spašavanje**

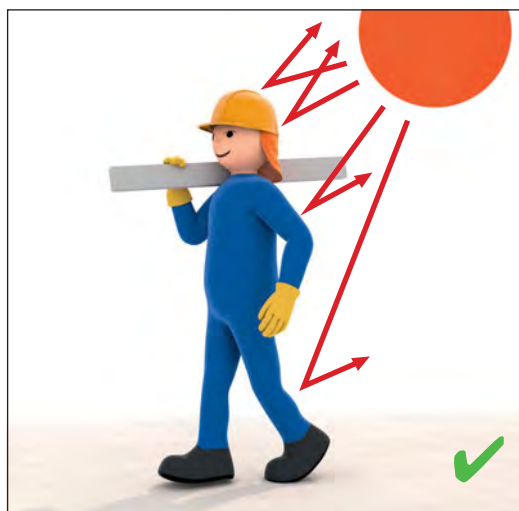

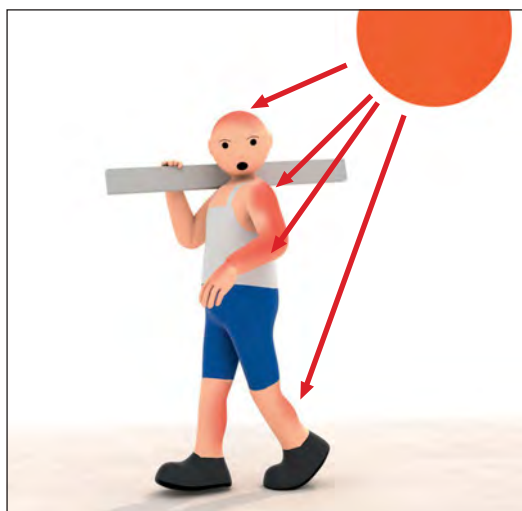

Zaštita od sunca kod građevinskih radova

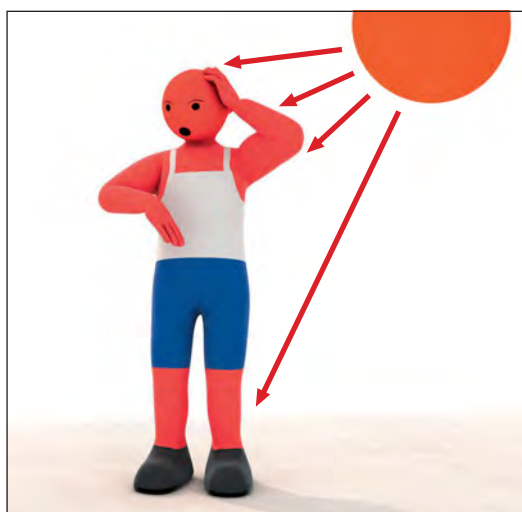

D 505-1

Izbjegavajte izravno sunčevo svjetlo

Dovoljno prekrijte tijelo.

Nanesite zaštitu od sunca

Transport težkih tereta

D 506-1

Nemojte se
preopteretiti

Pravilno
podizajte teret

Upotrebjavajte
transportna
sredstva
